Yuvraj Kunwar

has successfully completed the online Specialization

Cyber Incident Response

The Cyber Incident Response Specialization will give students a high-level understanding of incident response processes and an understanding of the technical skills needed for effective Incident response through hands-on labs and projects. This course starts with a high-level discussion of what happens at each phase of responding to an incident, followed by a technical deep dive into some of the more exciting parts of memory, network, and host analysis and forensics. This Specialization is for anyone wishing to apply learned forensics and offensive knowledge such as ethical hacking to the incident response process.
